DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Leonard Alkov on 4/27/05.

In line 5 of claim 1,

--; wherein said means for filtering includes first means for separating an input signal into plural intermediate signals, and wherein said means for amplifying includes second means for amplifying said plural intermediate signals via one or more high-speed switches and providing plural amplified signals in response thereto, wherein said means for filtering further includes third means for employing common mode rejection to filter said plural amplified signals, yielding a single output signal in response thereto, and wherein said first means includes a broadband input balun that receives said input signal and provides a first intermediate signal and a second intermediate signal as output in response thereto, said broadband input balun sufficient to impart approximately 180 degrees of relative signal phase rotation between said first intermediate signal and said second intermediate signal so that said intermediate signals are approximately 180

degrees out of phase-- has been added between "thereto" and ".".

In line 3 of claim 13, --;-- has been added between "channel" and "and".

In line 4 of claim 13, --; wherein said broadband balun is a broadband input balun, and wherein said amplifier further includes an output circuit connected at an output of said switch, said output circuit having a broadband output balun that provides
